<sup>1</sup> The rates in this chart are available to designated operators of member countries of the Universal Postal Union (UPU) if all conditions are satisfied as provided in the Universal Postal Convention and Convention Regulations and as further provided in the Postal Regulatory Commission's Mail Classification Schedule. These are base rates for basic services that do not include additional charges that may apply for ancillary and supplementary services, such as supplementary charges that may apply for tracking pursuant to the Convention and Convention Regulations.

<sup>2</sup> Under the Universal Postal Convention as it is currently in force, the Postal Service may submit its self-declared rates to the UPU either in local currency (i.e., in U.S. dollars (USD)) or Special Drawing Rights (SDR). If submitted in local currency, then the UPU International Bureau converts the rates into values expressed in SDR. To calculate the rates in SDR, the International Bureau now uses the average monthly exchange rate of the five-month period ending March 31 of the year preceding the year for which the self-declared rates would be applicable.

<sup>3</sup> Exceptions to these self-declared rates may apply where terminal dues are established by the Universal Postal Convention and Convention Regulations and as applied by operation of the Convention and Convention Regulations in lieu of self-declared rates, and/or if designated operators agree upon alternative rates by bilateral or multilateral agreement. Rates for certain exceptional flows may also be supplemented by internal air conveyance charges, to the extent provided by the Convention and Convention Regulations.
